

Welcome to the first HR Marketplace in Romania!

We embarked on this journey with the conviction that there are many of us who can help or need help, but sometimes the comfort or openness of those we address get in our way.

So we decided to try to remove these barriers and put our talents and potential in the service of good.

How does the platform work, in short?

- Step 1. Register in the special form available by clicking on the green button ENROLL IN MARKETPLACE. If you want to sign up with more offers / requests, you can do it. You can also sign up for both sections (offer and need), if you represent both market segments. Everything you enroll in the form will be your personal choice and represents a responsible and public commitment of expertise and know how made in good faith to Human Resources Quality Services and all the other marketplace applicants.
- Step 2. We will contact you to confirm the request / offer you wish to submit
- Step 3. You see your application posted on the website in the corresponding section and you receive a confirmation email at the email address provided upon registration.
- Step 4. Depending on the other requests / offers in the platform, when your request will be closed through the link with a recipient, it will move to COMPLETED section.
- Step 5. Whenever you want to fill out a new application, you can use the same registration form.

Whenever you want to withdraw your request, you can do it through the email you registered with by sending a message to office@hrqualityservices.com with the subject *Withdrawal from the marketplace* and an indication of your offer / request from the platform. Anyone willing to contact you will write us an email directly from you section and we will facilitate your acquaintance through a meeting common email.

Please keep in mind that you will not enroll in an online advertising platform, therefore, out of respect for the other participants and visitors, you will not be able to promote other platforms, brands or persons, but only real needs and capacities to solve them.

Encouraging as many people as possible to join this marketplace will help the community solve its problems faster.

The platform is dedicated exclusively to mutual help between applicants and our role is only to intermediate. We, Human Resources Quality Services, do not charge commissions, fees or other forms of remuneration from applicants, nor do we initiate discussions about the terms of collaboration between participants, the purpose of the marketplace being to correlate needs with available opportunities and facilitate your direct interaction. That is why the larger our community, the more people we can help.

Thank you and we look forward to seeing you join forces with our good deeds.

BECAUSE WE VALUE PEOPLE.
FOR REAL.
